SUMMARY

Bachelor of Science in Information Technology graduate with experience in cybersecurity, system development, and project management. Completed an internship at the National Bureau of Investigation Region VI, contributing to the development of a Case File Management System and supporting IT operations. Co-founded the BaHanap project and contributed to technical documentation, coordination, and innovation planning for thesis writing and startup competitions.

EXPERIENCE

IT Intern, Investigative Dept., National Bureau of Investigation - WEVRO Jan 2026 - Apr 2026

- With a team, developed a Case File Management System for handling and organizing case records.
- Led the initial frontend development and contributed to the system design process for the CFMS.
- Supported daily IT operations, including basic troubleshooting and system maintenance.

Co-Founder, BaHanap, West Visayas State University Jan 2025 - May 2026

- With a team, developed a startup named BaHanap, an offline communication and flood rescue system.
- Managed documentation of the development process and tracked project expenses to ensure smooth execution and budget adherence.
- Enhanced skills in project management, problem-solving, and digital innovation

Participant, Startup Challenges, Various Apr 2025 - Oct 2025

- Competed in local startup challenges, presenting innovative solutions.
- Achieved multiple special awards and and gained experience pitching to judges.
- Developed teamwork, entrepreneurship, and presentation skills.

PROJECTS

An Offline Communication and Flood Rescue System Utilizing LoRaWAN Jan 2025 - May 2026

Technology

Thesis Project, West Visayas State University

- Developed a disaster-response system enabling offline communication during severe floods to help rescuers and affected communities exchange real-time alerts and location data even without cellular or internet connectivity.
- Contributed to documentation of the development process, technical writing, and expense tracking for project management.
- Demonstrated skills in IoT systems, disaster technology solutions, research, teamwork, and technical writing.

SKILLS

Google Workspace	Cybersecurity	Problem-Solving
Microsoft Office 365	Artificial Intelligence (AI)	Teamwork & Collaboration
Basic Programming	Cloud Security	Communication Skills

EDUCATION

Bachelor of Science in Information Technology Aug 2022 - June 2026

West Visayas State University

- Completed a thesis project on an Offline Communication and Flood Rescue System Utilizing LoRaWAN Technology.
- Participated in the 26th International Symposium on Advanced Intelligent Systems in South Korea.
- Participated in the WVSU SeedSpark Technology Pitch Fest, winning 1st runner-up.
- Assisted my group in participating in the Philippine Startup Challenge in Region 6, placing in the Top 10 finalists.
